Socialization and exercise are important for a dog's health. At All American Pet Resorts Shelby Township, your dog will enjoy thousands of square feet of play space, both indoors and out each day. Play times are separated into groups of like size, age, and temperament.

Of course, playtime can be very stimulating and your dog will need to rest too! Unlike other daycare facilities, we offer all dogs their very own resting suite. [Click here for more information on our daycare rates and packages!](#)

Grooming

At our grooming facility, a trained professional will give your pet both a physical and a visual inspection. Afterwards, our professional will discuss with you to the best options for your pet's trim or cut and agree on any additional services you wish to be provided. All grooming services must be reserved by appointments, so call today to book ahead!
